

# Y3 Newsletter

Welcome back, we hope you had a great Easter and are all refreshed to start the summer term.

Burps, Bottoms and Bile is our next amazing topic! This term, we'll find out about different dental procedures and learn new scientific vocabulary. There will be lots of investigating as we learn about our different teeth, how to brush them and how sugary drinks affect them. We'll examine the amount of sugar in different foods and create images of ourselves with healthy and unhealthy teeth.

In D&T, we'll make our own wearable digestive systems. We'll learn about digestion in different animals and handle a range of digestive organs.

At the end of the project, we'll use what we've learned to play a scientific game and create healthy snack packs for our friends.

PE will continue on a Wednesday afternoon. Again, please ensure your child has a full PE kit in school with the essential suitable footwear for their own safety when participating.

Many thanks

Mrs Ayre and Miss Ferens
