Question	Answer
Cut out and attach a paperclip to each astronaut. Use a magnet to select an astronaut. Complete the calculation.	
	$\frac{6}{15} + \frac{2}{3} = 1\frac{1}{15}$
	$\frac{7}{21} + \frac{5}{7} = 1\frac{1}{21}$
	$\frac{9}{15} - \frac{1}{5} = \frac{2}{5}$
	$\frac{15}{18} - \frac{3}{9} = \frac{1}{2}$
	$\frac{16}{30} + \frac{2}{3} = 1\frac{1}{5}$
	$\frac{7}{9} - \frac{9}{27} = \frac{4}{9}$
	$\frac{11}{12} - \frac{9}{15} = \frac{19}{60}$
	$\frac{8}{12} - \frac{5}{10} = \frac{1}{6}$
	$\frac{3}{8} + \frac{7}{24} = \frac{2}{3}$
	$\frac{7}{10} + \frac{38}{40} = 1\frac{13}{20}$
