

Sport Premium Funding Action Plan

2017 - 2018

Bader Primary School

Vision for the Primary PE and Sport Premium

ALL pupils leaving primary school **physically literate** and with the **knowledge, skills and motivation** necessary to equip them for a **healthy, active lifestyle and lifelong participation** in physical activity and sport.

The funding has been provided to ensure impact against the following **OBJECTIVE**:

To achieve self-sustaining improvement in the quality of PE and sport in primary schools. It is important to emphasise that the focus of spending must lead to long lasting impact against the vision (*above*) that will live on well beyond the Primary PE and Sport Premium funding.

It is expected that schools will see an improvement against the following 5 key indicators:

- 1 The engagement of all pupils in regular physical activity – kick-starting healthy active lifestyles
- 2 The profile of PE and sport being raised across the school as a tool for whole school improvement
- 3 Increased confidence, knowledge and skills of all staff in teaching PE and sport
- 4 Broader experience of a range of sports and activities offered to all pupils
- 5 Increased participation in competitive sport

Primary PE and Sport Premium Report for 2016/17

The Primary PE and Sport Premium was launched by the government in April 2013 and is available for three years to July 2016. It is ring-fenced funding to be used by the school to improve the quality and breadth of our PE, sport and physical activity provision.

In the academic year 2017/18, we received £18,830. The details below show how we plan to spend the Premium and what impact it will have on our pupils.

Physical Education

Physical education is needed to increase the physical competence, health-related fitness, self-responsibility and enjoyment of physical activity for all pupils so that they can be physically active for a lifetime. Physical education can only provide these benefits if they are well-planned and well-implemented.

Improved Physical Fitness: Improves children's muscular strength, flexibility, muscular endurance, body composition and cardiovascular endurance.

Skill Development: Develops motor skills, which allow for safe, successful and satisfying participation in physical activities.

Regular, Healthful Physical Activity: Provides a wide-range of developmentally appropriate activities for all children.

Support of Other Subject Areas: Reinforces knowledge learned across the curriculum. Serves as a lab for application of content in science, math and social studies.

Self-Discipline: Facilitates development of pupil's responsibility for health and fitness.

Improved Judgment: Quality physical education can influence moral development. Pupils have the opportunity to assume leadership, cooperate with others; question actions and regulations and accept responsibility for their own behavior.

Stress Reduction: Physical activity becomes an outlet for releasing tension and anxiety, and facilitates emotional stability and resilience.

Strengthened Peer Relationships: Physical education can be a major force in helping children socialize with others successfully and provides opportunities

to learn positive people skills. Especially during late childhood and adolescence, being able to participate in dances, games and sports is an important part of peer culture.

Improved Self-confidence and Self-esteem: Physical education instills a stronger sense of self-worth in children based on their mastery of skills and concepts in physical activity. They can become more confident, assertive, independent and self-controlled.

Participation and achievement in school sport

Academic Year: 2017 / 2018	Total fund allocated: £18,830
